

UNECE Framework - Angola

	On economic activities	Beyond economic activities
From improved water management	Economic benefits <ul style="list-style-type: none"> Projects in the fields of energy, irrigation and water for Angola (small-scale hydro plants) Project for <u>agriculture development</u> Familiar <u>production/ income</u> <u>Accommodation offer</u> <ul style="list-style-type: none"> <u>Ecotourism offer development</u> <u>Development of aquaculture</u> <u>Land use improvement</u> <u>Increase in local revenues</u> <u>Increase employment offer</u> <u>Decrease in water price</u> <p>40%</p> <p>60%</p>	Social and environmental benefits <ul style="list-style-type: none"> Improvement of the potable water supply Development of basic water infrastructures offer Communities togetherness Reduction human pressure on the river <ul style="list-style-type: none"> <u>Ensure species reproduction</u> <u>Normalization of flow rates (upstream)</u> <u>Combat hunger and reduce poverty</u> <u>Food and nutritional security</u> <u>Reduction of mortality and increase of life expectancy</u> <u>Rise in families' income</u> <p>40%</p> <p>60%</p>
From enhanced trust	Regional economic cooperation benefits <ul style="list-style-type: none"> <u>Common fund for investment</u> <u>Increase of the commercialization of produced goods (transborder commercial net)</u> <u>Cross-border accessibility</u> <u>Namibia and Botswana expertise:</u> <ul style="list-style-type: none"> <u>Management of hydric resources /biodiversity</u> <u>Sustainable tourism</u> <u>Agro-livestock and fishing business</u> <u>Vaccination (eg. cattle immunization improvement)</u> <u>Environmental education</u> ... <p>100%</p>	Peace and security benefits <ul style="list-style-type: none"> <u>Scientific production</u> <u>Information sharing</u> <u>Regional cooperation</u> <ul style="list-style-type: none"> <u>Harmonisation of water management law</u> <u>Hydrological network data (integration)</u> <u>Rapid alert systems</u> <u>Stakeholders involvement (communication strategy): environmental impacts, water management, ...</u> <u>Best practices (eg. sustainable tourism, ...)</u> <u>Control deforestation</u> <u>Waste management optimization/ Pollution decrease</u> <u>Border surveillance</u> <u>Social support (situations of vulnerability; drought/floods)</u> <p>25%</p> <p>75%</p>

	On economic activities	Beyond economic activities
<p>From improved water management</p>	<p>Economic benefits</p> <ul style="list-style-type: none"> • Projects in the fields of energy, irrigation and water for Angola (small-scale hydro plants) – national plans • Project for agriculture development – national plans • Familiar production/ income • Accomodation offer <ul style="list-style-type: none"> ○ Ecotourism offer development ○ Development of aquaculture ○ Land use improvement ○ Increase in local revenues ○ Increase employment offer ○ Decrease in water price 	<p>Social and environmental benefits</p> <ul style="list-style-type: none"> • Improvement of the potable water supply • Development of basic water infrastructures offer • Communities togetherness • Reduction human pressure on the river <ul style="list-style-type: none"> ○ Ensure species reproduction ○ Normalization of flow rates (upstream) ○ Combat hunger and reduce poverty ○ Food and nutritional security ○ Reduction of mortality and increase of life expectancy ○ Rise in families' income

	On economic activities	Beyond economic activities
From enhanced trust	<p>Regional economic cooperation benefits</p> <ul style="list-style-type: none"> ○ Common fund for investment ○ Increase of the commercialization of produced goods (transborder commercial net) ○ Cross-border accessibility ○ Namibia and Botswana expertise: <ul style="list-style-type: none"> ● Management of hydric resources /biodiversity ● Sustainable tourism ● Agro-livestock and fishing business ● Vaccination (eg. cattle immunization improvement) ● Environmental education ● ... 	<p>Peace and security benefits</p> <ul style="list-style-type: none"> ● Scientific production ● Information sharing ● Regional cooperation <ul style="list-style-type: none"> ○ Harmonisation of water management law ○ Hydrological network data (integration) ○ Rapid alert systems ○ Stakeholders involvement (communication strategy): environmental impacts, water management, ... ○ Best practices (eg. sustainable tourism, ...) ○ Control deforestation ○ Waste management optimization/ Pollution decrease ○ Border surveillance ○ Social support (situations of vulnerability; drought/floods)

What is best known/ heard of Namibia/ Botswana (Menongue workshop):

- Community projects of Namibia
- Hydrological control stations
- RAMSAR (tourism and scientific development)
- Water and energy supply projects
- Sustainable agriculture
- Water capture for agriculture
- Sustainable tourism
- Irrigation
- Environmental education
- Continental fishing
- Okavango delta development plan
- Educational base
