

OKACOM

shared resource; shared decisions;
shared benefits; shared vision

The Cubango-Okavango Basin-Wide Vision

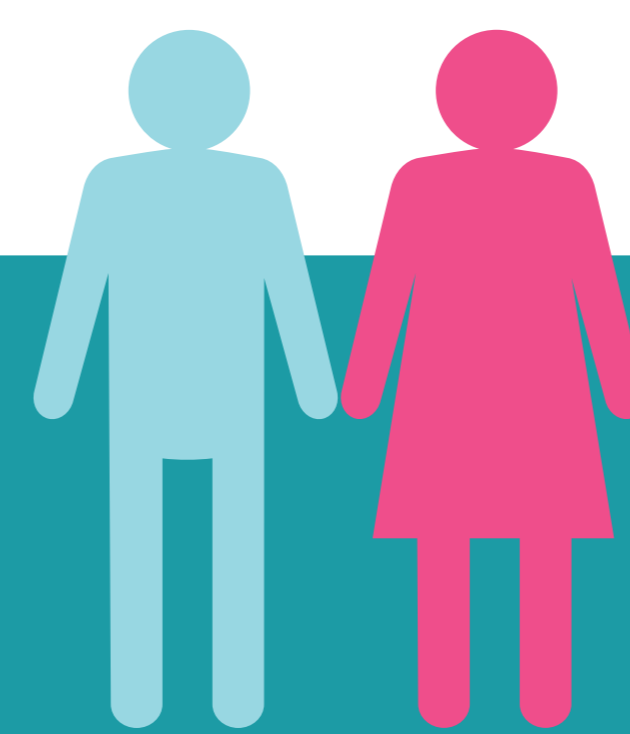

REDUCED POVERTY

through investments with minimal and positive environmental impacts

WATER, ENERGY AND FOOD SECURITY

in the face of an increasingly variable climate

GENDER AND SOCIAL EQUITY

in all phases of the project cycle

EMPLOYMENT AND WEALTH

created by investments that support equitable and reasonable development

OKACOM IS THE PRIMARY VEHICLE THAT CAN FACILITATE LAND-USE COOPERATION

Over the past 20 years OKACOM has facilitated the Member states of Angola, Namibia and Botswana to develop tools and instruments for joint management of the Cubango-Okavango River Basin.

Critical to this cooperation is the joint basin-wide shared vision of the **economically prosperous, socially just and environmentally healthy development of the basin.**
